

Permission to conduct research

I would like kindly to ask your collaboration with our medical students who are in the process of conducting a research study as part of activities for medical school. The principal investigator is Dr Nadia Jradi from the faculty of Medicine at Beirut Arab University. The study is entitled: " Lebanese parents' perspectives regarding the use of mobile media devices among thir young children"

We are requesting the kind permission to allow our student to access your facility and to interview people in order to fill a survey that take no longer than 15 minutes after their consent.

The data will be pooled for the research project and individual results of this study will remain absolutely confidential and anonymous. Should this study be published, only pooled results will be documented not according to organisation name. No names or identification will be registered and no identifier of the organisation will be made

Your approval to conduct this study in your institution will be greatly appreciated.

We will be happy to answer any question, you can contact me directly or you can contact the head of the research committee, Assis. Prof. Dr Bilal Azakir

Many thanks for your collaboration

Best regards

Prof. Najlaa Mashaal

Dean Faculty of Medicine
